

Investigator:	<b>Sharon Polensek</b> Phone: (404) 321-6111 Email: Sharon.Polensek@va.gov
Primary Research Interest:	Neurology
Description of Research:	To develop personalized rehabilitation care in spatial neglect (SN), a disabling cognitive deficit causing asymmetric 3-D spatial action, movement, perception and awareness using neuroimaging. The long-term goal is to lead SN research toward routinely identifying affected veterans, and rapidly providing personalized cognitive rehabilitation, to improve functional outcomes for veterans with stroke in the community.
Relevance to VA:	Assuming role of PI for SPiRE
